

Multi Fun

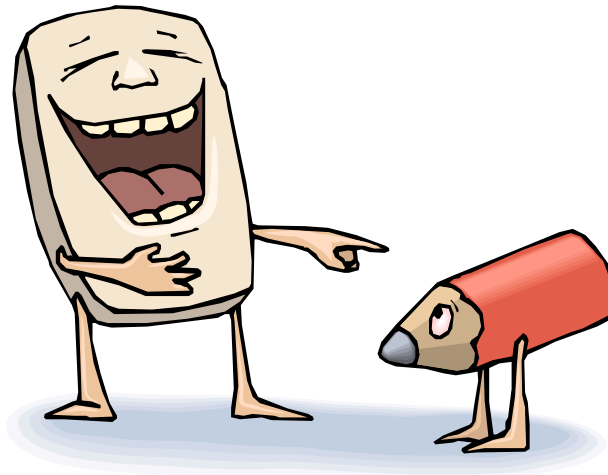

Materials

For each pair of students:

- Fun Factor* game board
- 2 transparent disks
- 30 game tokens per student

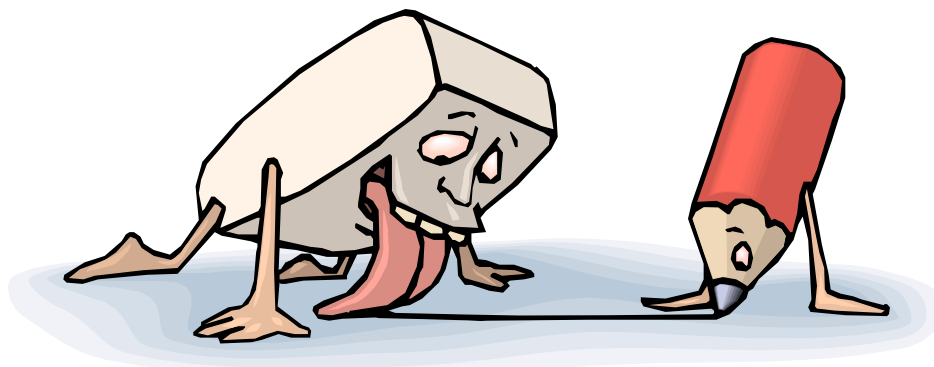

Number of Players

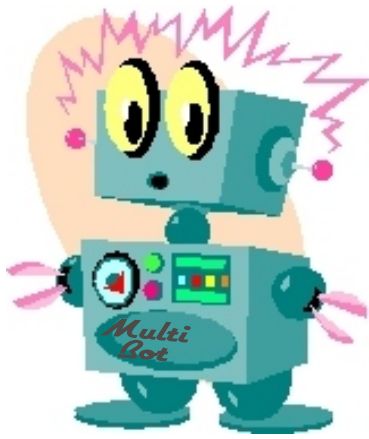

2

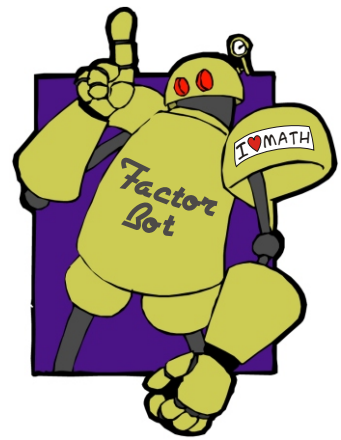

Directions

1. Divide the students into pairs.
2. The student with the longest hair is Player 1.
3. Player 1 places two transparent disks on any two numbers at the bottom of the page, finds the least common multiple of those two numbers, and covers that number on the game board with one of his or her game tokens.
4. Player 2 moves only one of the transparent disks to a different number, finds the least common multiple of those two numbers, and covers that number on the game board with one of his or her game tokens.
5. The game continues with alternating plays.
6. The first player to cover four squares in a row, column, or diagonal is the winner.
7. A player may use any of the four free spaces as part of their row, column, or diagonal.
