

NUMERATION CONCENTRATION

THREE
THOUSAND, FOUR
HUNDRED SEVENTY-TWO

Materials

For each pair of students:

Numeration Concentration cards

Number of Players

2

Directions

1. Divide the students into pairs.
2. The *Numeration Concentration* cards should be turned over and spread out.
3. The tallest student is Player 1.
4. Player 1 will turn over two cards. If the cards match, Player 1 keeps them and turns over two more cards. If they do not match, Player 1 turns the cards face down in their original position.
5. Player 2 continues in the same manner.
6. If a player turns over a Bonus Card, it should be put aside until the end of the game.
7. When all cards have been matched, the players should add up his or her total score. Each match equals one point.
8. Any Bonus Card that a player drew should be added to their total score according to the amount on the card.
9. The winner is the player with the most points.
